“ I am year late in sharing memories due to cancer and other pressures. I loved Mike and although we grew apart there are happenings that will never go away. The Young Dems had their National Convention in Miami Beach in 1954. Mike, Wally O and I were voting Delegates. Steny was the Chairman of the Maryland Delegation. The war was the main issue and President Johnson was worried that the Young Dems would break away and introduce a resolution against the war. Wally tried to create support for the resolution without the leadership knowing his strategy. The press was all over the convention, Dan Rather wanted to interview us and all sudden Steny invited us to his suite and pulled our credentials. We had a wonderful time renting a boat and fishing for the remainder of the convention. Sorry to see you go Mike, with love and admiration. Dennis Berlin

“ I will miss Mike. He was so full of laughter and fun. We sometimes will never know how a strong voice full of laughter can suffer so much in silence. I came to know Mike through Rosemary who is now inconsolable without her “Mac Attack”. How sad life can be.

“ So sorry to hear of Mike’s death. Condolences to his family and many friends. Many happy memories of him in the “old” days of 1964 and since. We will all miss him.

“ We have many memories from our years together in the Young Democrats where we first met Mike and each other: monthly meetings; his return from his stint in the army, tan and slender; parties at the Byrons and the Orlinskys. Those were the good old days. We are glad to have known Mike, he will always be part of our lives,

Marcia and Charlie Moylan
