“ Ann, Jack and their 3 daughters took me into their home when I was 15 to 16 years old after having survived a most tumultuous existence with my real family. They treated me like I was their own daughter and provided me a safe haven, so I was able to remain in school without interruption. Ann was a most loving and supportive mother and wife, and a compassionate and concerned individual towards mankind in general. I'm forever grateful to her and the Phillips family for carrying me through one of the most difficult times of my life. I'm sorry I didn't keep in contact. I will forever remain grateful to you and the Phillips family for sustaining me during that time period. I hope to meet you again one day on the 'other side', so I can personally thank you and Jack.
