“ I did not know Dr. Evangeliou, but I learned of him while I was researching a philosophical passage and needed help interpreting it. I read a paper he had written on the exact issue that I needed help understanding. Just wanted to leave a note as a testament to the legacy of his scholarship, because the paper really helped me

“ Karen,  
We are so very sorry to learn of Christos passing. He was such a joy filled person and it was always a pleasure to chat as he made his regular loops around our alley. We are thinking of you and keeping you and your family in our thoughts and prayers.

“ Christos taught at the TU Honors College for many years, and his students really enjoyed his teaching. Upon retirement, he gave the Honors College many of his books to start a library in our new space. His books are now a centerpiece of our entrance and provide reading areas throughout the College. His love of philosophy and cultural studies lives on and will be discovered and enjoyed for many years to come.
