“ I had the privilege of being Evelyns neighbor for 22 years. She would spend hours outside in her gardens almost every day. She taught me many things about gardening, and named all my plants, bushes, trees and flowers! She knew it all!! We feel so blessed to have known both Roy and Evelyn. Rest in peace, dear Evelyn.
Love, Susan & Walter Chrobot

“ Aunt Evelyn and I shared a love of gardening. She enjoyed weeding, I do not! But we liked to compare notes on our plantings and harvest. We also both enjoyed reading. She especially liked biographies. Just last month I sent her a book recently written by Jenna Bush Hager about her grandparents. She called me to let me know she was really enjoying it.
When we had family picnics, we could always count on her barbecue and gooseberries.
She was an amazing lady who enjoyed being active to the end.
Heaven has a garden waiting for you, Aunt Evelyn.
