“ We are so saddened to hear of the passing of your beloved Dad. And so my Mom and late father’s neighbor and close physician colleague who covered for my beloved Dad for years.. I loved all the stories i would hear from Dad and your beloved Dad. A few years ago, Mom and I sat with him to learn so much about his life as well as my Dad, physician talk and more. What a special Dad, Grandfather and GreatGrandPa. I know that God gained an amazing Angel and someone to admire in life and all that he accomplished as a physician and more. We were truly blessed to have known Dr. Leslie. Our through ta and prayers go out to the entire family and memories to last a lifetime. With Deepest Sympathy, Mom, Mrs. Geri Hamed, late Dr. Jamshid Hamed, Michelle Hamed and family

“ I remember Dr. Franklin Leslie very well. I am a retired Pulmonologist from GBMC Hospital, and I recall Dr. Leslie was asking me to see in consultation several of his patients admitted at the hospital.

Dr. Leslie was always very caring for his patients, eager to help them and offer the best solutions they needed. He was a true gentleman, loved by his patients, nurses and colleagues! I always respected this wonderful Doctor!

Dr. George Bedon M.D.

“ I remember with respect and warm feelings Dr Frank Leslie. He was a wonderful gentleman who loved his wife and 3 daughters. He will be missed by many patients and people that knew him

May he Rest In Peace
