“ I am so very sorry to hear about the passing of Dr. Labarraque. I started working for him in 1975 and continued until he no longer had an office. I learned so much from him and loved working for him together with Ana Maria. He delivered my children and had the most compassion and understanding.

Mike and I send our condolences to the Labarraque family.

“ Dr Labarraque delivered my brother In 1966 and I in 1964. My mother tells me of her first appointment with him in his office across the street from St Matthews Cathedral which was on that day draped with black crepe for JFK funeral. My sincere condolences to the Labarraque family.

“ When I was pregnant with my second child in 1968, I didn’t want to repeat the experience I had when giving birth to my first, gassed and then out of it the whole time. I learned of Dr. Labarraque, who allowed what was then called “natural childbirth” and allowing the husband in the delivery room. So, despite the fact that we lived in Reston and he practiced at Washington Hospital Center, we signed on with him. It was an altogether positive experience. Dr. Labarraque was a leader in what would become a much more meaningful experience for women. Amy is now 52!

My condolences on the death of Dr. Labarraque.

“ Recuerdo con placer, al colega y amigo Jorge, desde que trabajamos juntos en los años 1960 en el Washington Hospital Center, sala de partos. Aunque no conozco a sus herederos, les envío el mas sentido pésame.

Un abrazo.

“ If this Dr. Labarraque was the ob/gyn who helped deliver my five children between 1967 and 1976, he is a "legend" in our family.

As one of very few proponents of Lamaze-style "natural" childbirth in the D.C. area at that time, "our" Dr. Labarraque gifted my late husband and me with the total joy of couple-centered deliveries of healthy babies topping the Apgar scale. What a wonderfully warm, compassionate, skillful doctor he was!

To help remember him always, we named our last child Timothy Jorge-Joel, to honor both the outstanding obstetrician who delivered him and the pediatrician, Dr. George Joel Cohen, who cared for Tim and his siblings throughout their early childhoods. We always felt tremendous gratitude to both of those exceptional doctors who taught us so much about parenting and, in so doing, strengthened and enriched our family immeasurably.

With heartfelt condolences to all of Dr Labarraque's circle of loved ones,

L. R. (Anzelmo) Tokarz

I met Dr. Labarraque in 1957 when I had complications after my first daughter was born, due to another doctor's negligence. He saved my life. I continued with twenty-four years under his care, and the birth of three more children, who are now in their sixties and fifties. Dr. Labarraque was a compassionate, caring, outstanding doctor, which is rare to find these days. I will always be eternally grateful for his care

I pray that his family will find peace in the many memories they shared. God Bless
