“ Dear Muffy and Carey, Polly and Skip were wonderful neighbors at Elkridge Estates during my years there. I remember when your mother brought me chicken soup when I was sick, had an impromptu cocktail party for the neighbors in our building during the hurricane, and brought me flowers after my boyfriend broke up with me. I was surprised and amused to learn back then that she and Skip used to watch "Sex and the City" as one of their favorite television series. It seems like it was just yesterday that I was talking to them. Time goes by so quickly. I hope loving memories will comfort you during difficult moments. Sincerely, Heather Tapager
