“ *Im really going to miss sharing the ice with you brother. A great hockey player and even better friend.*

“ *Phil was a kind man who would help me and my parents whenever he could. He carried my best friend across the stream to safety when she passed out at Rock State Park. That was the Phil I know. I look at this beautiful smile he has here and my heart aches for his loss. I will miss him dearly. I will pray for him and his family in this terrible time of loss and grief. I am so sorry he is gone forever from this earth. He was much much loved*
