“ Dr Rex frost, you taught me so much about life! I remember the first time that we went to the Bahamas together, you treated me like family! I shared a room with your oldest son and we had a blast. We took many wonderful trips, I learned new things from you everyday. From how to spot a good deal in realestate, to how to simply be happy in the face of any situation no matter how grim, you always said "it will all work out don't worry you'll see". It was that invincible positive attitude that always amazed me. Even though I was just a 20 year old kid from the wrong side of the tracks, you always made me feel welcome, always greeted me with a smile and a firm hand shake. You made me feel dignified. Words can't express how much you mean to me. We shared a love for fine automobiles, and that passion will always be with me. When ever I see an SL series Mercedes I think of you! I really can't believe that you're gone, it was only weeks ago that we were taking about houses in Houston at your breakfast bar. As a way to honor your memory, I will try to be more outgoing and helpful towards people whom I don't know, I'll try to help people who have potential to be helped, and I'll share my knowledge as you did with me to uplift others and build confidence in their natural talent! I just wish that I could have thanked you for everything before you left this earth. May the lord Jesus Christ look favorably appon your soul! May the lord forgive your mistakes as you forgave me for mine. I will always miss you dear friend! You were like a father to me, I never wanted to let you down although at times I did. I never told you this, but many times your positivity and believe in me made me shy away from trouble when I was in my 20s, I simply didn't want to have to tell you later that I had done something stupid. You changed the way that I thought about life, business, and, people. I will see you again in heaven, God bless you dear friend! May God bless you with everlasting life in his kingdom.

To the Frost family: Thank you for sharing him with me for the past 20 years! He was and is truly an inspiration to me in many ways! My deepest sympathy is with you!

Paul, the car guy.

“ Rex,

I write this today as it's the only way I can express my sadness, my total void in my life without you, my best friend, my mentor, my idol and one of the most special person's in my entire life. I want to thank you for being in my life for the almost two decades of pure friendship and business that we shared. Today as I walk the earth I find myself lost in many ways without your worldly advice, business acumen and friendly gestures that you shared with not only with me but countless other individuals whose life you genuinely touched. I am thankful that the lord has blessed me upon meeting you and making my life a better place to live and never taking anyone for granted. I pray to God that your wonderful family heals in peace from your absence although they know that you are looking down on them in heaven and watching over them as you always have. I wish you a beautiful afterlife and I cherish the day I can meet you again :) I love you always my best friend in the world. Chuck Hinkel
