He was born in Towson, MD on November 6, 1970, and was raised there, attending Towson High School. From a very young age, Rick loved anything related to science, finally devoting his career as a chemical engineer to work in process control and optimization for several manufacturing companies.

His first job moved them both to Bastrop, LA where he worked for International Paper and received a secondary degree in Pulp & Paper Science & Technology from the University of Northeastern Louisiana. He continued his work as a chemical processing engineer for 26 years at companies including Hercules near St. Simons Island, GA and Printpack in Williamsburg, VA, where he acquired several patents surrounding improved puncturability in the print packaging industry.

Rick enjoyed his life and had a variety of interests including cooking where he especially enjoyed testing recipes with his beloved sous vide. He also enjoyed gardening, trying his hand at planting tomatoes and corn, as well as propagating his love of purple violets, replanting the smaller leaves into pots and sharing them with friends and company employees. His love of alternative music from the 90's and 2000's was profound and he enjoyed sharing his vast knowledge of it with his friends and family.

“ Dear Mrs. Pepersack, Kim, and Lisa,

It has been many years since we have seen one another, but my memories of playing with Kim when we were young children are among some of my happiest. I think of your family with fondness. I am deeply saddened to read of Rick's death and pray that you have many wonderful memories to give you comfort during this time.
