“ Started being friends with Mac, Stephanie's first husband. He was fully involved in finding out about a trainer for the Navy's EA6B aircraft coming out of NTSC. That was in the early 70's. That was the start of a very long relationship with VAQ129 out at Whidbey Island NAS, After a time Stephani, who also worked for AAI marketing, started her lobg term with the electronic warfare community. Especially the Old Cross association.
