EW

“ We'll miss you PopPop. ❤️

*I know you don't want a big to-do, but I hope you don't mind too much if those of us who are still here need a little something; a small celebration for the time you spent with us, and for the memories we will continue to carry.*

*Thank you for those memories.*

*We love you, and we know that you always loved us too, even when we were far apart.*

*So, for those who knew and loved you, I am sharing some photo memories to help us remember your time with us, and shedding some tears since that time has come to an end.*

*Wishing you a peaceful journey. 🕯️*
